"Safety First" applied to automobiles is the first subject of the Screen Magazine, Issue No. 43. There are 400,000 cars in New York State alone, running all the way from the flivver to the most luxuriously appointed limousine. A third of these is in New York City, and the problem of preventing accidents is a great one. Many interesting views of the men who try to do so and the best methods employed are shown.

New inventions are represented by views of the new giant transformer, which develops enormous power from a small voltage. "Sports" appear in the form of riding lessons as they are conducted in Central Park, New York.

An interesting number shows carrier pigeons, which are still used as an important factor of the signal service of every army. We see 3,000 of them arrive, transported by rail from their native city, for a race homeward of fifty-seven miles to test the staying quality of each bird.

A vaudeville bit, presenting Wood's troop of trained dogs, concludes the reel.
